## The 5 biggest hair colour trends of 2016!

**Dip Dye:** Dip-dyed hair has been trendy for a couple years now and with the number of celebrities who are still sporting this color trend on the rise and it seems this trend isn't going to die anytime soon. Bright hues, pastels and the popular "ombre" gradient shading are all popular hair colors. If you want to try a coloured dip dye but don't want the actually dye your hair, the girls can colour it with hair chalk!

**Ronze:** An updated take on bronde for blondes, this hair color trend is made for redheads. Ronze is a mixture of copper red and bronze brown. It works well on all complexions. For those with fair skin you'll want a more vibrant undertone, and those with darker skin will want a warm amber tone to complement your skin tone. Chat with one of our talented stylists to find the right tone for your complexion.

**Babylights:** While the name sounds a little silly, this colour has been extremely popular in 2016. Babylights are a great way to introduce highlights and dimensions into the hair. They are super easy to maintain with very little upkeep and a natural grow out. While it works on any shade, blondes really benefit from this colour as it gives blonde hair a big pop.

**Rainbow Hair:** Rainbow hair is still all the rage, and looks like it will be for a long time. Coloured hair is something you have to try at least once, it is just so much fun! It can make you feel brighter as a person, and can literally brighten any situation! You will be the talk of the party, and feel fabulous!

**Bronde:** "Bronde," is a term inspired by blondes who want to go dark, but not too dark. It became a big hair color trend in summer 2015 and is carrying strong into 2016, as it's a nice blend of hues for the colder weather ahead. This color is perfect for those who want a change but isn't ready to give up blonde. Talk to one of our talented stylists to find the perfect shade of 'bronde' for you!

## What bangs are right for you?

Are you thinking about taking the plunge and getting the bangs you have dreamed of for ages, but aren't sure how they will look on your face? Well here is a guaranteed way of checking what will look good on you! As we move into winter, adding some bangs to your hairstyle not only adds extra volume and shape, but also keeps your forehead warm! Winter is the best time to try out new bangs. Trying to upkeep bangs in the summer heat is an absolute mission, but in winter you minus the sweat and humidity and get perfect bangs!

**Square face shape:** Eye-grazing bangs are the best style

for those with more of a square shaped face. If you have a square face, you have angular features, which means jaw is almost as wide as your cheekbones. The best bangs for you are long, side-swept bangs that graze the brows. They should hit just below the brow but be longer on the sides. The key to your perfect bangs is to ensure that the bangs are tapered on the sides and are longer than they are above the brow.

**Heart shaped face:** If you have a heart-shaped face, your forehead tends to be wider than your jawline and your chin comes to a distinct point. Your goal is to balance out the bottom of your face with the top of it and to downplay your pointed chin. Avoid wide blunt bangs. These will highlight your forehead. The best cut for you is long side-swept bangs. These sweep down below the chin and therefore sweep the eye down.

**Round face shape:** If you have a round face, the width of your cheeks is the same as your jaw. This is the same as the square face shape except for one thing: your jaw is soft, not angular. Because of the

softness of your face, your goal is to create some angles and make your face appear longer. Thick, wispy bangs are the best bet for this shape of face. The secret to wispy bangs is in the curve of them. They should be longer on the sides and shorter in the middle. This gives your soft features a bit of angle.

**Oval face shape:** Oval shaped faces look great with most bangs! So why not try a few and find your favourite?

**Bring a friend!**

We want your experience at our salon to be one that is filled with happiness and fun. So why not bring along a friend next time you come in to get your hair done? The two – or three! – of you can sit together, relax and catch up on the latest gossip all whilst being pampered by our incredible team. In our busy world it is often difficult to catch up with friends. So why not make the most of the time you will be spending in the salon? It is the perfect time to sit down and have a coffee with a friend. And you can both leave looking and feeling fabulous!
