

S'kapade News: Keeping in Touch – Winter 2016

The leaves have fallen, the nights are long and crisp, and winter is on our doorstep. Winter is the time for coziness, for good food and warmth, for the touch of a friendly hand and a new hairstyle! Winter is a great time for you hair, as it finally gets a break from the harsh rays of the summer sun. After a whole summer of being subjected to the intense Australian heat, your hair needs our fabulous team more than ever. As the sun causes our hair to turn dry and brittle let the wonderful girls at S'Kapade Hair & Beauty treat you and your hair! The girls work their hardest to achieve your perfect hairstyle, and we believe they do a fantastic job. We would like to thank the S'Kapade girls for their constant determination to make our customers happy, and for doing their absolute best in what they do. We would also like to thank you, our faithful customers, for your ongoing support and loyalty. We love your feedback, and the look of appreciation on your faces when you see your hair once the girls have worked their magic. It is clients like you that make our jobs a pleasure, and keep our salon a success.

Repost from a happy customer, Laura!

"The photo on the left is my hair after years of bleaching, dying, straightening and curling on a regular basis - even after chopping it to shoulder length my hair was still so unhealthy! I have looked for so long for a product to help bring life back into my hair when my friend steered me onto NAK - and the difference is extraordinary. I could feel the difference after using it for only a

week, and now a couple of months later my hair is healthier than it has been in a long time." Laura uses the NAK smooth range. Come into the salon and ask our friendly staff about the NAK products we have available to buy in salon, and start feeling the difference in your hair today!

Top 3 Hair colours for winter!

"You should change the tone of your hair color seasonally—in the same way you change your makeup and wardrobe," says color pro Rita Hazan, who Beyoncé and Jennifer Lopez entrust with their hair colours. A new dye, she claims, "changes the entire vibe and energy of a person, and puts you in a better mood." So lets have a quick look at the S'kapade girls' favourite hair colours for winter and you can think about making a change for the better!

Electric Auburn

Update a brunette shade with warmer undertones. No highlights required—this rich shade stands alone.

Rose Copper

A new take on the redhead is lighter with a subtle tint of pink that'll pop out against a dark winter wardrobe.

That's So Raven

Winter is the perfect season to go the blackest of blacks. A monochromatic, dark shade is the best bet for lovers of low-maintenance routines.
